Dana, you are one in a million. You have always been where you are needed. (which is something not very many people have the gift to do.) There will always be someone who needs you no matter where you go or what you do. I know you've been a help to me and Kathy (He hasn't ever come back) and everyone else you've been friends with now and in the future. (If you know what I mean). I hope we can have good times and fun in the rest of this school year. May ~~the~~ good luck and the grace of God follow you wherever you go. I love ya Dana! Stay good and don't ever change your loveable (mean) personality!

Highland Re-9 Education Association And School District Presented Plaques To Four Teachers

Mrs. Merna Burkhart found the younger students more rewarding in her teaching field. She has spent 23 years teaching in the elementary schools in the Ault-Pierce-Nunn area. Her main desire was "to give each student a good start in school by teaching the basics in learning. Without that base, a child could soon run into trouble in the higher grades. Without a good foundation they can become frustrated and often may lead to "drop outs." She enjoyed teaching the young students since they seem much more spontaneous and presented a much freer process of thought. As for the future-perhaps becoming a teacher's aide next year.

Mr. Cordell Hailey has devoted 37 years to educating children and coaching. He has spent 19 years of those years in the Highland District mainly at the junior high level. He has quite an interest in his garden and expects to find winter employment.

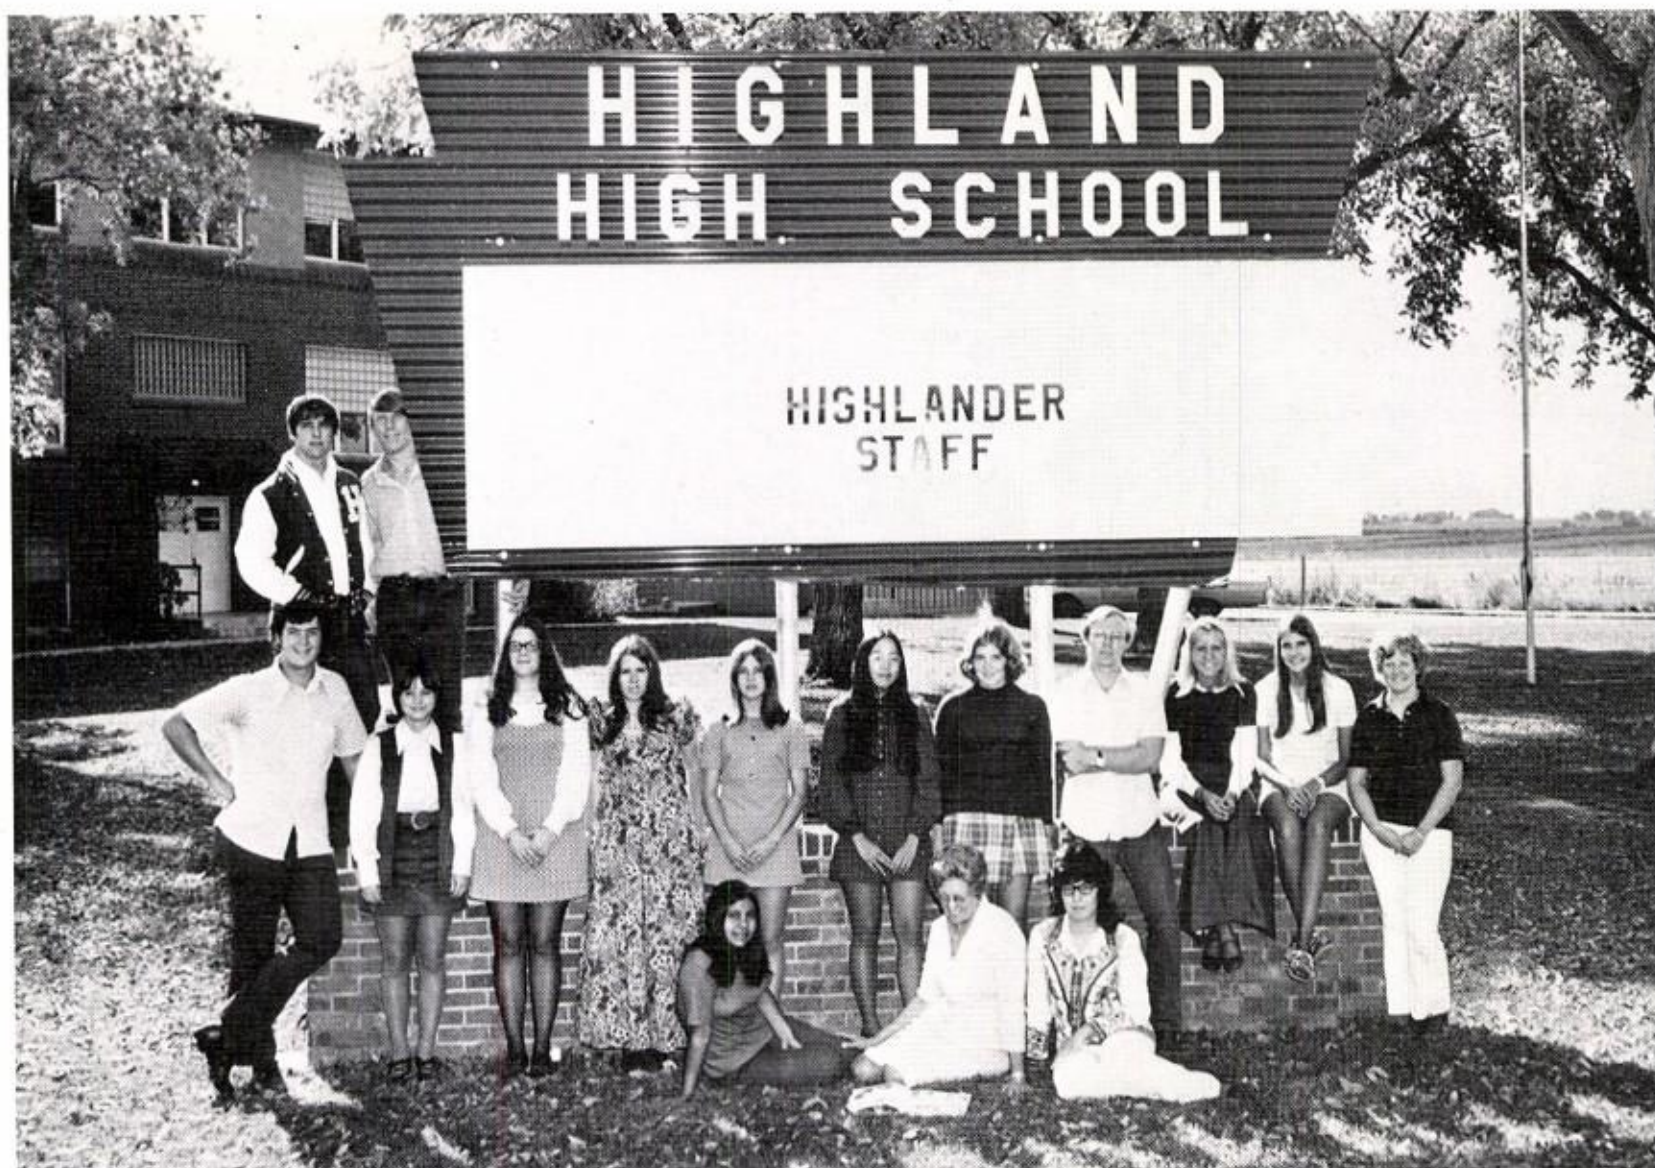

In talking with these people, one will note that none expect to retire but expect to become active in different areas of work and activity.

Teachers leaving the Re-9 school district as full-time teachers were honored at faculty luncheons on May 25, 1973. Each was presented with an attractive plaque by a member of the Education Association.

Mrs. Hazel Chick is leaving after 31 years of service in the high school. During those 31 years she primarily has taught home economics; other classes were college prep English and psychology. Her aim in teaching was "to try to make young people recognize their own potential and to be themselves." After doing some traveling and visiting, she plans to become involved in community work outside the educational realm.

Mrs. Laura LaBorne has spent 14 years in the high school teaching Spanish, French, and Latin when it was in the curriculum. In her teaching, she has attempted to make the languages adaptable to the needs of the students and fit that need on a broad scale. Her future plans are indefinite after the usual summer vacation. She has many hobbies and no doubt will be active in community work with her husband who retired from teaching couple of years ago.

DEDICATED TO THE CLASS OF 1973
BY THE CLASS OF 1974

On winged feet the four years pass
And now we honor our Senior class.
Beyond these walls, this town, this state
A whole new world now lies in wait.
You've much to learn, we're often told
Wisdom to gain before you're old
But tonight — before you turn and go
Your separate ways, as well we know
Enjoy this place, these hours, this school
In memory they'll return to you.

Benediction The Reverend Henry Baker
Recessional "March from Die Meistersinger"
Richard Wagner
Highland High School Band

The Reverend Henry Baker: This program intrigues me a great deal—a combination of Baccalaureate and Commencement exercises.

The theme for this message actually comes from a little bit of advice by "Dear Abby." One morning not long ago, I was glancing through this particular section, and some woman was telling about her search for happiness. She had never quite found the happiness that she sought.

Abby's advice is the words of our theme this evening, "Why search for happiness, Create it!" After all, you are here in search for happiness. We say we are LOOKING for happiness; but, really, we can CREATE our own happiness out of making the kind of lives we have the potential to create with all the help that is available to us these days.

Robert Frost wrote a poem entitled, "The Mountain." In this poem is a story of a beautiful mountain that dominates the landscape such as Long's Peak yonder. The people around the foot of this mountain saw it everyday and took it pretty much for granted. But a stranger who came to this valley was thrilled by that mountain and asked a villager, "I'd like very much to climb that mountain; how shall I climb it? Is there a path that goes to the top, and what will I see when I get there?" This was his reply, "I have always meant to go and look for myself, but you know how it is; it doesn't seem so much to climb a mountain you worked around the foot of all your life." That says to me that too many times we take things that are right at home too much for granted.

There is a story of an elderly woman who was flying in a plane for the first time from San Francisco to New York. After they were airborne, the voice of the pilot came over the intercom and told them what their destination would be, etc. There was something comforting and reassuring about his voice so she settled down and her anxiety disappeared.

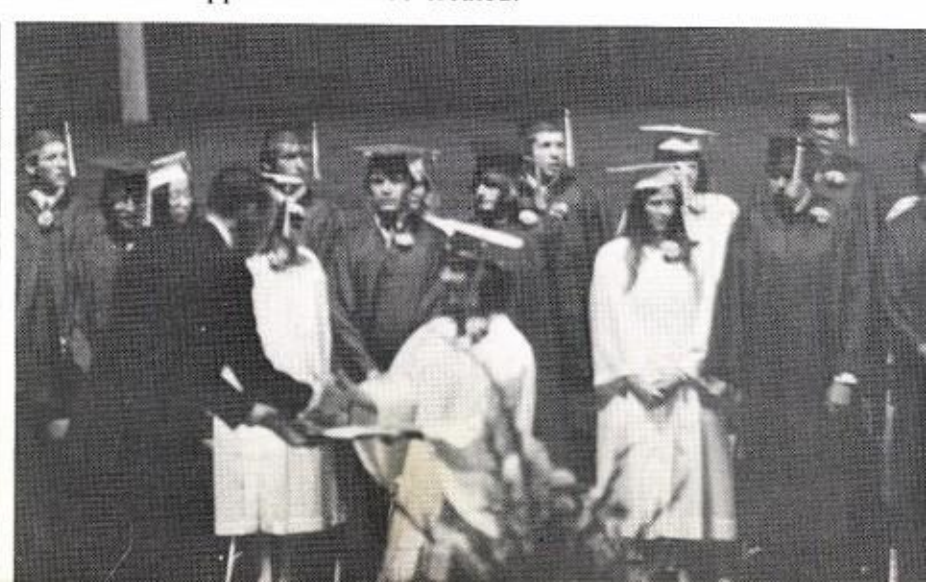

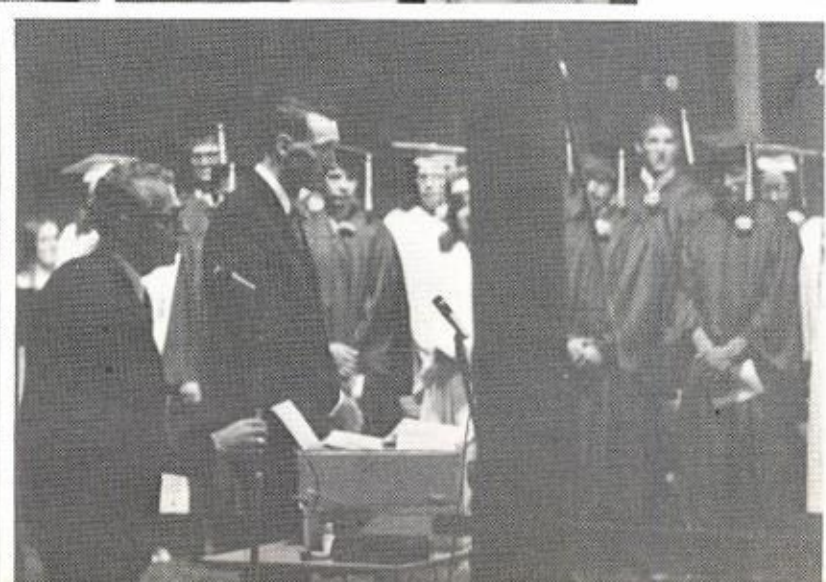

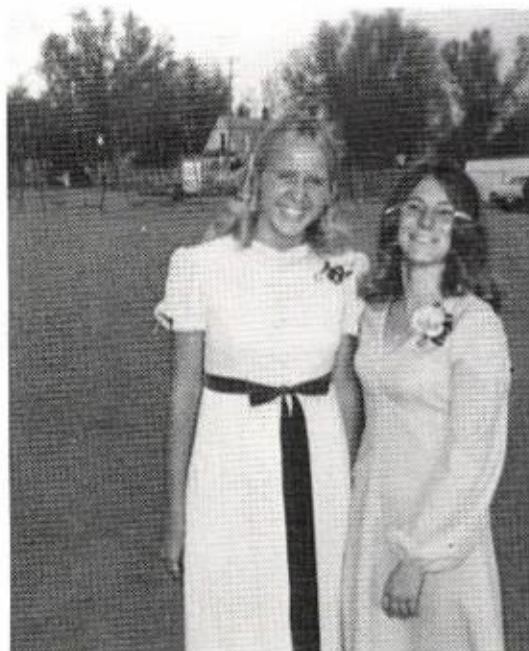

Well, about 30 minutes out of San Francisco, he announced, "I don't want to disturb you, but we will be about 30 minutes late coming in to Kennedy Field; engine Number 4 has konked out and will slow us up a little bit."

These announcements occurred at intervals for engines number 3 and number 2. About this time, this was as much as the little lady could take; and she said, "Good Heavens! It is our luck that engine number 1 will konk out and leave us up here all day."

We just don't really understand how dependent we are on one another. Happiness can be created out of what we are and what we can become. Sometimes, we create happiness for ourselves and others out of what, in the eyes of some, may be unlikely materials and in some unlikely places.

It will depend on your awareness to involve your life in the lives of others wherever there is human need; and when you identify your life with human needs, then you have heard the call of God. That call is clear and is ringing in our time.

REMEMBER: Happiness CAN be created!

Mr. Earl Reum: Teachers, administrative staff, bus drivers, luncheon ladies, and custodial staff, moms and dads, grandmothers, grandfathers, aunts and uncles, brothers and sisters, friends and enemies of the graduates of '73, and anybody else who wandered in here thinking it is a pre-season game. It's a frightening thing to talk on a football field. It takes me back when I was a sophomore in college. Papers had been drawn up that said that none of us could weigh more than 125 lbs.—wouldn't you say, this is a fairly scrawny team? We had one kid that weighed 125 lbs. with his uniform on. The shoulder pads kept sliding down, pinning his arms to his body; and if it weren't for his Adam's apple, he wouldn't have had any shape at all. I remember he lost the toss for us, and the sophomores were elected to kick off. Here we were down at the end of the field, I looked down at the line of people, and they all had their eyes shut; contrary to the supreme court decision, I think they were all praying—"Lord, please don't let them kick the ball to me." And then he snaps the ball and something happened—he started running for the sophomores, and then he saw them running toward him so he ran back where the rest of us were hiding. He ran straight for me with that stupid ball, holding it with both hands, and he shoved it at me and in that funny Richmond, Virginia, accent, he shouted, "Fo' Heaven's sake do somethin' with it!"

... And then you discover a secret—on the 18th of May, 1973, at Highland High School, hopefully before any of the bugs got to maturity, we had a commencement. And commencement was hooked up to Baccalaureate.

... All of us wish you the most warm congratulations. Let me give you a simple letter "C" - congratulations, it is the word Commencement which means BEGIN.

... A couple of weeks ago, we were watching you and you were a little bitty kid, you were bald, you didn't have any teeth and we weren't really sure we wanted to keep you and all of a sudden—here you are. You've become a young lady. It's funny what we think about. Every mom and day knows something funny you've done. (the story and experiences of the "Belly Button"—the experience with the hot air in a "Biffy"—)

... We would like to give you a mink stole or a Cadillac convertible; and instead, we give you underwear and socks. It's the thing that we say, that you only go around once, and it's rather important that THAT once be absolutely the very best in the world.

... People who need people are the luckiest people in the world. ... I tell you, I carry a glass eye in my pocket and that's a ghastly thing. If you make change in a restaurant, and the waitress sees it, why she'll generally say something like—E-h-r-k!

I taught eighth grade, and Susie Wilcox sat right here—she had \$1233 worth of braces. She wrote once in an essay that she was afraid of going out in the rain, 'cause she thought the lightning would strike and it would weld her mouth shut.

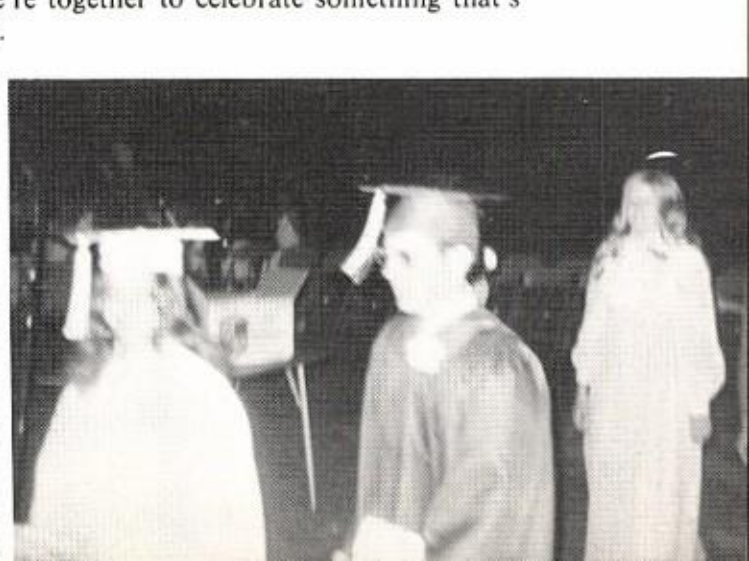

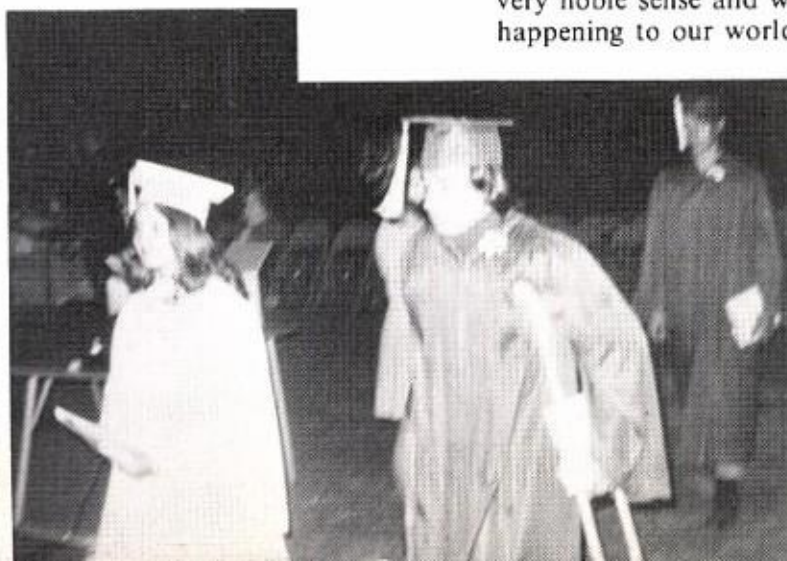

One Friday I said, "What do you guys want to write about; and she said, "Let's write about love." One of those kids wrote "LOVE IS DOING EVERYTHING POSSIBLE FOR ANOTHER PERSON, so he can have a chance to become the greatest human being that God has created." (Which is not bad for an eighth grader) —probably was stolen from the Reader's Digest.

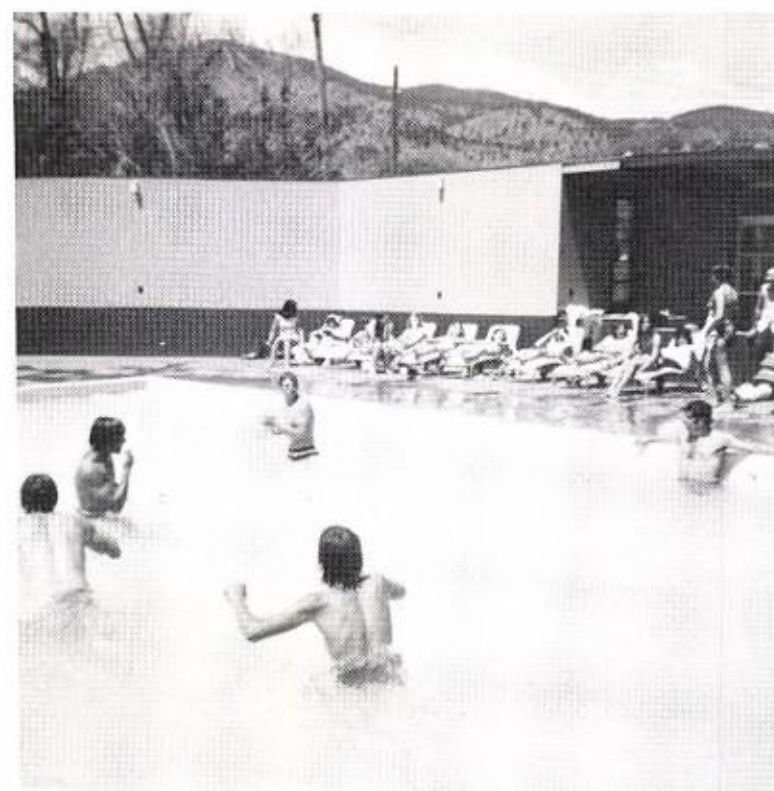

... And tonight, our graduates—maybe because they are born free, which is what this song is sort of indicating (on the tape recorder during the speech). There may be in the 51 graduates, somebody who writes the best songs, gives the best speech ... discovers the secret to ...

So freedom is sort of hard to talk about because it is also a matter of education. (The guitar string that must be fastened at both ends and then TUNED so it can be what a guitar string is capable of being) It's not freedom FROM; it's freedom FOR; and freedom FOR is what freedom might make a difference about. ... (The story illustrated with 3 ropes made into one to show that freedom means that one is hooked up to all resources, and it becomes equal to any standards that anybody wants to bring up).

... We're going to read some first, middle, and last names tonight. Nobody knew what they were until just lately, and I hope you kids will forgive us; but at the time you were born, we thought they sounded pretty good. Then all of a sudden you're going to have put into your hand something that has never existed before in the world's history and you're related to 51 other kids and graduates who are very serious people. The reason is, because if you smile the tassel blows in your mouth and gets tied up with your bubble gum and gives you a terrible problem. You're serious for another reason—a lot of us have on brand new shoes and they hurt like thunder, and if you turn your head real fast you give a whiplash to the kid next to you and might blind him—so it is a serious time.

Suddenly you think of Brian's song or Susan's song, and the relationship with other guys and other gals. It's a terribly important time because we're together, really, for the last time. We're together in a very noble sense and we're together to celebrate something that's happening to our world.

Student Council Projects

Student Council had many projects this year, a few of these were established new this year. The biggest project of the group was establishing a Student Lounge, this was set up with rules and then received approval by the school board. It is open to Juniors and Seniors. The seniors have assigned periods during the day and the Juniors may attend before school, at noon, and after school. As always

they planned and supervised Homecoming-week activities. During Christmas they held a sock hop, which went off very well. Presently they are working on improving the public address system in the gym. The Student Council has done an outstanding job this year and wish them good luck next year.

Multi- Occupations

Vocational Agriculture

Highland and Eaton high schools cooperated in exchange vocational programs. The two programs were in multi-occupations and vocational agriculture.

Middle School In Second Year

The second year of our "middle school" concept is beginning to demonstrate the cooperative and creative work of students in a greater way than when the traditional junior high was operating. The resources of the children are being realized and have indicated themselves in the activities they have initiated.

Several of the departments have shown improvement: a beginning course in electricity is being taught, the (IPS program) Introduction to Physical Science program has been implemented, the mathematics curriculum has been restructured with future plans to be continued, the seventh grade language arts (English and Literature classes involving three groups) wrote and presented a play which took a great deal of planning indicating student creativity and ability to present it to an audience.

As for the physical plant, projection screens have been placed in about half of the classrooms for use with the overhead projectors, film strips, and any movies pertaining to class work; many classrooms received new bulletin boards; the library has been reorganized; the counseling room and the offices have been carpeted and appropriate drapes hung to give the surrounding a pleasant atmosphere a "face lifting." The home ec department also did a good job in bringing color to the walls to make them more cheerful.

The Field Days, Spring Festival, and style show certainly helped to close a rewarding school year.

Plenty Of Money

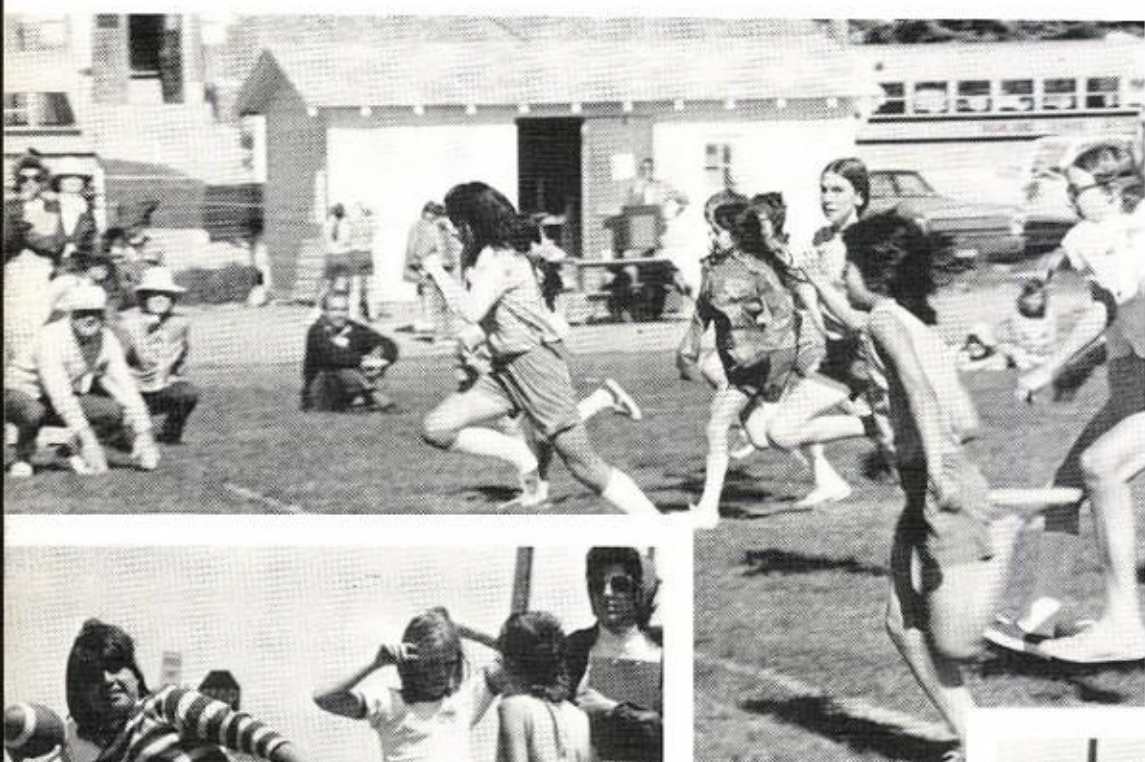

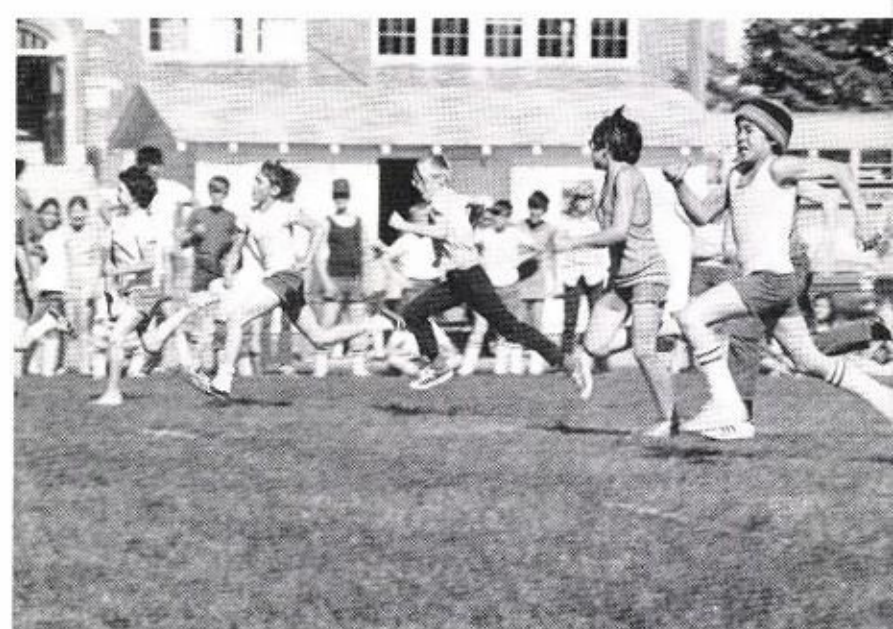

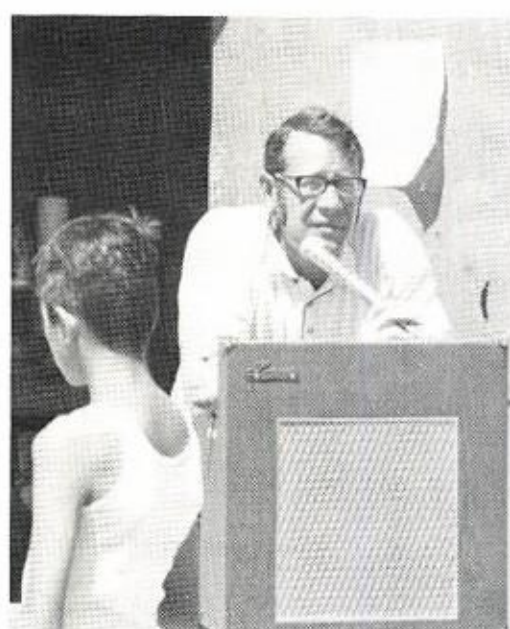

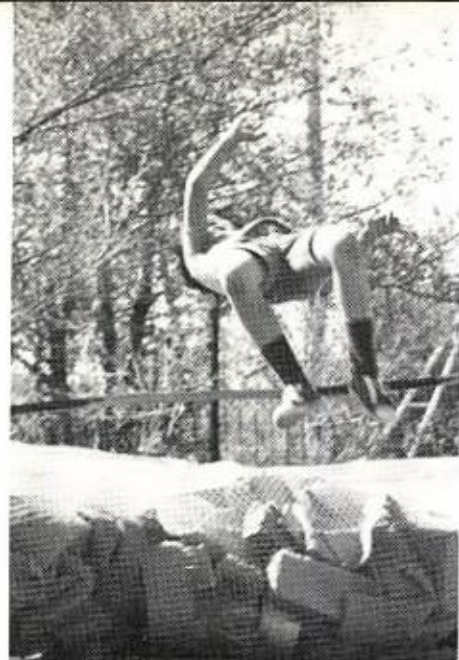

The seventh grade language arts classes—three groups—wrote the original script of the play. It presented a culmination of their impressions in English and literature.

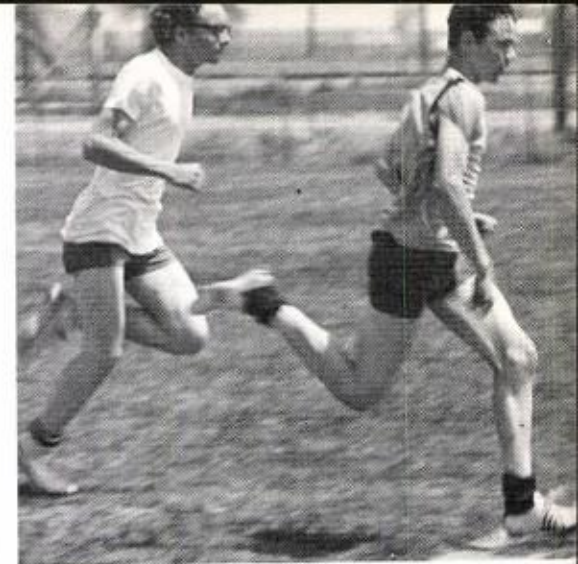

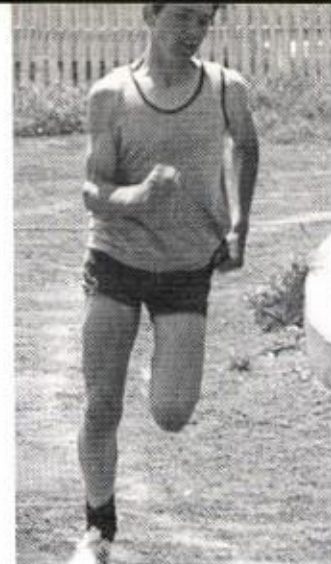

The play was presented before the entire middle school—grades 5, 6, 7, and 8. The acting was very well done and their parts were well memorized. Everyone enjoyed the plot and the humor connected with it.

me again. I just even realized I have said nothing whatever about the FUTURE! You really have got a lot going for you. You'll make it in life. You're just that kind of person. It may seem rough but nothing is given out on silver platters, it always works out in the end. So just don't sweat it. You'll see. And if it really gets rough, take it to the man upstairs. And don't forget: I'll always be there when ya need me. Just hollar. One more thing. You've got some shoes to fill this year.

Dana,

I don't know where that hand would be without you. You have really pulled us together. You are also a really great person, too. I have thoroughly enjoyed your company these past few years. I wish for you the best of luck in all you do. God bless you always.

I can't express my thanks to you on paper, nor can I write down my memories of our good times. I don't tell you how much I appreciate all you've done; rather, I must show you. As for memories, we each have our special ones; we needn't remind each other of them.

I can't give you any advice at all but to "Follow your Faith."

There's only one thing I can say to you and one other person: "You Light Up My Life."

Love Always,
Spud!

body else does, so let's leave them in the dark. Any-
way... I could probably go on on for 3 or 4 more pages (with-
out even repeating myself) But I won't. Because you have
enough of me by being around, without having me all over your
arm. But such is life. Personally, I've always wondered what a page covered com-

Hello. Me again. I decided this page looks awful empty and blah. So why not me either. Besides I wanted to say things. I am very thankful and lucky to have you & the others for a friend. I mean really. 'Cause you've showed me what friendship is all about. And real friendship is a very beautiful thing. It is also one of the rarest things on earth. yet you have found it. But more important than that, you have found how to be a friend. No two people are attached. That's the way you are. That's the way all you guys are. That's the way to be. And now to add some "sexiness" into this, 'cause as far as orange is sexy, and you'll probably look a sa at this and say. I know what you'll say, a you'll know what you'll say, but no-

Don't (who's that??) Bear,

well, I've had this for a while now trying to think of the right words. And ya know whad? It can't be done. So I'll ad lib it. Anyway... I was looking through this, I saw that you mean the same thing to every one that signed it. Let me rephrase that. It's amazing how you always seem to help & be liked by everyone, and they all can agree on what you're all about. The point of all this gibberish: You're always yourself. And everyone loves ya for it. When I get to be one of the finalists in the Miss America pageant & am asked who do I most admire or who would I most like to trade places with, do you know who the person would be? You. Because I love, respect, & admire you; not only for what you are to me, but for what you are to everyone. Remember when we were at Cable's End & you said you were always looking to see what kind of competition ya got? Well, let me tell you, there is no competition. You are the original Cor one of them; present company excluded G.J. Really. I just can't tell ya how much your & the others' Friendship has meant to me. You've been there times I've needed you, & don't forget that I'm always here. You guys, have all got something going for ya, cause you really care! I better quit cause this might get too sticky for an annual & I can't really tell ya how much ya do mean to me & how much you've actually got going for ya. But I think ya know without me tellin ya, & that's the great part about it. And besides that, I've got to take a bath. So God Bless ya always & may His light always guide you.

hang in there! Love,

C.H.

(Carol Hesson)

Dana Ann,

Hi there! I really don't know where to start, so I'll try starting at the beginning! (Ha! Ha! Really funny!) Ok, well! Anyway I want to say that you've helped make my high school years worthwhile! You're a sweet girl with a super personality and you'll go to the top right away! Thanks so much for being my friend! I wish I knew how to repay you for all you've done! I really have enjoyed bumming around with you and I hope we can have a blast again (or still) this year! I hope we get to see each other after we graduate but if not I want you to know that all my good thoughts and best wishes are with you always! Best of luck in all you do and be good! Take care

P.S. Remember me!
 + let's keep in touch!
 God bless!!

Dear Dava, (Pam)
Everything has already been said. How can I possibly add anything to it? But I can say that friendship is something everyone needs, also good humor and love. I wish to thank you for that special friendship you've shown me. It really means so much to me. It means so much that feelings are deeper hard to express. I love you in the Lord, Dava, as I do many of my other special friends. And believe me Dava you are special. In every way. You mean a lot to a lot of people... to me. So Dava, Don't of Fulk and May God Bless and fight your faithful life. Love

Bear

Holey mackintosh! I've had this annual for, let's see now, three weeks. Oh well, I've kept it healthy.

Just think, this is our last year, Mr. Big. And since I've started that wheel turning, I want to say THANKS, which includes everything from smiles to tears + all that neat stuff in between.

Someone once told me that I was always there when they needed me, the only trouble with that is, that I wasn't (mainly because I was still in that screwy junior High School + was to "little" to know where my head was). But, you my dear, was always there, to laugh, talk, listen, advice, or just for company (those there were just a few). You made me realize quite a few things, like mashed potatoes are sooshy, one smile can make a blizzard (or lizzard) disappear, + how beautiful life is.

Anyway, in a few years (50?) you'll more than likely forget about me, but because you have opened my eyes to life, every time I look at a flower, banana peel, or just a song, I know I'll think of you.

So kid I'll end this now but before I do, I want to say "I love ya sister" + don't ever change babe, "cause you've got it all together." With respect
Love
Paula

Dana.

It's hard to believe that we are finally seniors. We've really had some great times together and I hope many more. Dana, your really a great gal and you always there when I've needed you. You always listen to me and my problems. The many times you've come over and we messed around. You've got a great personality and fun to kid around with. Dana, our friendship doesn't have to end. We'll have to keep in touch. Okay? Keep that great personality and you'll go far. Be good and May God Bless you always!

Love
Carolyn

Dana,
Hello there. Well I thought that may be I better get this thing signed before you got mad and decided to hit me, I couldn't take that you know. Since I lost my pen I haven't had every good chance to sign it, (that sounds like a pretty good excuse to me). Sorry about the sloppy ~~writing~~ writing but you'd know me and hand writing don't get along too well together, and besides it's not even cool to be able to read what someone else writes in your annual. I never really know what to say but remembering all of the great times that we have had in the past year I am almost sorry that this is the last year for you and next to the last year for me, but I guess that all good things must come to an end. It just seems to me that all the good times end about 300 million times to 900. But anyway I will never forget the South Dakota Trip and I am sure you or Vicky never will either. I know that once you get started there is no stopping you and I know that if you ever start college or anything else that you will never quit. Best of luck in all you ever do. (I know you won't need it).

Love Ray

P.S. You little cutie you!!!
